WORK EXPERIENCES

SOFTWARE DEVELOPMENT INTERN JANUARY 2025 – MAY 2025

RADZTECH BUSINESS SOLUTIONS

- Developed front-end components using ReactJS and Material-UI for web-based applications.
- Collaborated with team members on various tasks, contributing to a teamwork-oriented development environment.
- Worked with RESTful APIs, using Postman for testing and debugging API endpoints.
- Assisted in integrating Node.js for back-end functionality and data handling.
- Managed Git branches, handled pull requests, and participated in code reviews to maintain code quality and streamline the development process.
- Gained valuable hands-on experience in front-end development, API integration, and agile collaboration practices.

LEAD DEVELOPER AUGUST 2024 – JANUARY 2025

BARANGAY DISTRICT 1, SAN MANUEL ISABELA

- Developed and deployed an Integrated Barangay Information System with Geographic Information System (GIS) capabilities.
- Built both desktop (C# .NET Windows Forms) and web-based applications using HTML, JavaScript, PHP, and Material-UI (MUI) for a responsive and modern design.
- Designed core modules for GIS mapping, resident profiling, and document request management.
- Integrated Google Maps API for interactive mapping and visualization.
- Used MySQL as the backend, implementing full CRUD operations, data validation, and user authentication.
- Implemented an AI-powered chatbot to assist users with inquiries and guide them through document request processes.
- Integrated email-based request handling to allow residents to request official documents online.
- Designed a clean and accessible UI/UX with role-based access control for barangay officials including Chairman, Secretary, Treasurer, and Kagawads.

IT STUDENT ASSISTANT AUG 2023 – DEC 2023

OUR LADY OF PILLAR COLLEGE SAN MANUEL INC.

- Provided technical support and helped manage campus IT resources. Gained hands-on experience in troubleshooting and system maintenance.
